## OBJECTIVE

I'm a motivated Computer Engineering graduate with hands-on experience in full-stack web development, particularly using technologies like React, Python and FastAPI. I have a solid grounding in programming, data structures, and problem-solving. Right now, I'm diving deeper into AI and machine learning to create smart applications. I'm excited to put my skills to use and contribute to innovative software solutions in a fast-paced work environment.

## SKILLS

- HTML
- CSS
- JavaScript, ReactJS
- SQL
- Python- FastApi

## INTERESTS

- Open source development
- AI/ML
- Debugging

## ABOUT

I am a motivated and results-driven individual with a solid foundation in web development and a strong academic background. I have successfully completed an internship where I developed engaging projects and honed my skills in HTML, CSS, and JavaScript. I am eager to leverage my technical abilities in a growth-focused environment. I am also passionate about Python.

## EXPERIENCE

<b>Grownited Private Limited</b> Python Developer Intern	Jan-2025 - Apr-2025
My responsibility was to write a frontend and backend code for company.	

  

<b>CodTech IT Solutions</b> Frontend Developer Intern	Jun-2024 - Jul-2025
My responsibility in this company was to write code and give new design layout for company.	

## EDUCATION

<b>Tops Technologies Pvt. Ltd. Ahmedabad</b> Python full stack developer	2025-2026
<b>Marwadi University</b> Bachelor of Engineering CGPA- 7.73	2021-2025
<b>Shakti Higher Secondary School</b> Higher Secondary Education 80%	2019-2021
<b>Aditya Birla Higher Secondary School</b> Secondary Education 79.83%	2018-2019

## PROJECTS

### PocketBuddy

In this the restaurant owners can add the offers with image coupon and users can view it.  
Admin here can update and delete the information regarding offers and users.

### Guess the number

In this the our system has set one number and we have to guess the number.  
If number is less it will tell to low and vice versa and after guessing right number it will say your number is right.

### To do list

This project we have to add our working schedule of ourselves and we can remove it after completion.
