Projects

Pocket Buddy:

In this the restaurant owners can add the offers with image coupon and users can view it. Admin here can update and delete the information regarding offers and users.

Guess the number:

In this the our system has set one number and we have to guess the number. If number is less it will tell to low and vice versa and after guessing right number it will say your number is right.

To do list:

This project we have to add our working schedule of ourselves and we can remove it after completion.
